

GERMANS TO CUT OFF RETREAT OF RUSSIAN ARMIES

CAMPAIGN IN BALTIC PROVINCE
THOUGHT TO BE PART
OF SCHEME.

NINETEEN MILES FROM WARSAW

Teuton Armies Are Under the Guns
of Fortress Northern Key
To the City.

(Associated Press)

There is no halt in the Teutonic drive aimed at Warsaw and having as its larger motive the infliction of a crushing blow on the Russian armies. The Russians, however, seem to be showing increasing powers of resistance as the German host draws nearer the Polish capital.

Are Near City
The Germans are under the guns of the fortress Nowa Georgieschek, the key to Warsaw on the north, which is nineteen miles from the city. Farther north the Fortress Ostroletma has fallen.

To Cut Off Retreat

In the Baltic provinces the German advances continue. This campaign is possibly intended to cut in on the Russian lines and prevent the successful retreat of their armies from the Warsaw region. The Teutonic advance in southern Poland also continues.

Little Activity in West
The Italians claim advances along their front but these claims are denied by Vienna. There is little activity in France or Belgium.

Miners Accept Terms
The striking South Wales coal miners have accepted the terms offered them by the operators and the strike is ended.

Turk Vessels Destroyed
Petrograd says that sixty-nine sailing vessels laden with flour have been destroyed by Russian warcraft. Sebastopol yesterday reported the destruction of fifty-nine Turkish sailing vessels.

WABASH R. R. SOLD FOR \$18,000,000

(Associated Press)

St. Louis, Mo., July 21—The Wabash Railroad, a \$220,000,000 corporation, was sold under the hammer for \$18,000,000 to a joint reorganization committee under foreclosure proceedings to satisfy a \$41,000,000 mortgage. The Wabash as it is now constituted is a combination of several lines, independently built, with a total mileage in 1914 of 2041.

The road went into the hands of receivers Dec. 18, 1911, the receivership being at the request of the Westinghouse Air Brake Co., which had a claim of \$18,000.

ELKS WILL ENTERTAIN OFFICERS

Reception Tomorrow Evening For the
Second Regiment Officers.

The Elks of the Dixon lodge will entertain the officers of the I. N. G. now in camp at Camp Dunne at the club house tomorrow evening. Light refreshments will be served and every Dixon Elk is urged to be on hand to welcome the visitors. The reception will be held the same evening that the Second Regiment band gives a concert in the Court House square and the band members will also be entertained after the concert at the club house.

Second Regiment Band Will Play Fine Program Tomorrow

Chief Musician Albert Bobene, director of the Second Regiment band, has arranged a fine program for the open air concert which the crack musical organization will give at the court house square tomorrow evening, and the people of Dixon and vicinity are assured of a musical treat.

The band is acknowledged as one of the best military bands in the country. In Chicago its services are always in demand, and in Peoria and Springfield, where the regiment has camped in former years, concerts each evening by the Second Regiment band always brought out enormous crowds. Prof. Bobene, the director, is a musician of great ability and is one of the best cornet soloists of the country. The program which he has prepared for the evening's concert is:

Knows Nothing Of Eighth Regt. Camping Here

Capt. Simons Post Quartermaster Says He Would Be Informed

Captain Simmons, post quartermaster, in an interview with the Telegraph today, stated that as far as he knew the rumor that the 8th regiment (colored) of the I. N. G. was to camp at Camp Dunne this year, is unfounded. Captain Simmons said that the latest orders he knew anything about were that the 8th was to camp at Camp Lincoln in Springfield. As quartermaster of the camp, he stated that he would be the first one to know of any change in the arrangements and that as yet he had heard nothing of it.

Want Visitors.

The officials at Camp Dunne are anxious to have Dixon people come to the camp and visit the soldier boys. Captain Simmons stated today that the roads were not particularly bad and that automobiles were coming through all right. He said that the Second Regiment band gave a concert last night that was of the class that people pay considerable money to hear. The men like to have the people of Dixon take an interest in them and their work. Dixon people should show their appreciation of the location of the camp here.

SUPERINTENDENTS IN MEETING TODAY

SCHOOL OFFICIALS HELD MEETING AT ROCHELLE TO DISCUSS NE WLAWS

A conference was held at Rochelle this afternoon between county superintendents John E. Cross of Oglesby county, Harry B. Price of Whiteside county and L. W. Miller of Lee county to discuss plans of school work for the coming year and also to talk over the new school legislation which became effective July 1. A number of changes have been made in the school laws and it is hoped to get the method of conducting schools more uniform throughout the state. The tuition of all graduates from rural schools going to high schools in the cities will now be paid by county superintendent out of the distributive fund received from the state instead of each school district from which the pupils come having to pay the tuition.

DEKALB PAPER HAS GOOD WORD FOR US

PRaises DIXON ELKS' HOME AND MANNER OF PUTTING ON WORK.

The DeKalb Independent, in its story of the visit of the DeKalb Elks to Dixon Monday evening, praises the Dixon lodge as follows:

The beautiful Dixon Elks' home was wide open for the guests who gathered there early to enjoy the spacious and elaborately furnished rooms of the Dixon brothers. At a little after 8 o'clock the lodge meeting was called to order and two candidates were given their initiation into the order. The work was excellently done and the Dixon Elks may well be proud of their set of officers.

WILSON'S MESSAGE BEARER KEPT HOT PAGE THRU STATE

MOTORCYCLIST, BEHIND SCHEDULE, SHOT THROUGH DIXON AT 9:50 THIS MORNING.

119 MILES IN 170 MINUTES

First Relay in Illinois Clips Two Hours Off Time Lost in the East.

Ed. Hawkins, with his motorcycle "wide open" and preceded Harry Sawyer, the official messenger, and George Heutzel, the other escort, shot through Dixon at 9:50 o'clock this morning, carrying the message of President Wilson to the president of the Panama-American Exposition at San Francisco. Twenty minutes later Sawyer, wheel support dragging and pounding over the pavements, followed, and fifteen minutes behind Sawyer came Heutzel. Trouble with his machine caused Sawyer to transfer the message to Hawkins, and Hawkins dashed into Sterling, the relay station, at 10:10 o'clock. Walter Loos of Sterling, the official messenger from Sterling to Davenport, got away at 10:15.

Muddy roads in the east have seriously delayed the message. It arrived in Chicago at 7:20 o'clock this morning, ten hours and twenty-five minutes late. Hawkins pulled into Sterling eight hours and twenty-five minutes behind the schedule. The distance from Chicago to Sterling, 119 miles, was covered in two hours and fifty minutes.

The president's message is in a special leather dispatch case and strapped over the shoulder of the bearer. Night and day, rain or shine, the message is kept going. If it is not cloudy the moon will be out most of the nights, but whether it is bright moonlight or pitch dark there will be no halt. From the time the message left President Wilson's hand at 10 o'clock Monday morning until it is turned over to the Mayor of San Francisco, nothing that can be foreseen will be allowed to interfere with its progress.

At the San Francisco fair a great map eight feet long has been erected. Across this the route of the relay riders has been plainly marked and as the message travels from point to point its progress is shown by a moving figure of a motorcycle rider which will travel across the map, thus keeping the thousands of exposition visitors posted.

From east to west the country over, relay managers have been busy for weeks arranging all the little details that make for success. Local riders familiar with the ground over which they are to travel, have been chosen as far as practicable.

HEMORRHAGE FOLLOW OPERATION

Miss Charlotte Dodson Victim of Bleeding Following Operation.

Hemorrhages, which set in Saturday following an operation for removal of tonsils earlier in the week, nearly cost the life of Miss Charlotte Dodson of this city Tuesday evening; and although she is now exceedingly weak from the loss of blood, it is believed she will recover. The hemorrhage started Saturday and continued without mitigation until 4:30 o'clock Tuesday afternoon, when the hours of work on the part of the physicians, stopped the flow of blood. Her condition became so critical that her parents were sent for.

LATHING CONTRACTOR SIGNS UP

Local Lathers Received Notice That Disagreement Is Settled

Officials of the Dixon branch of the International Lathers' Union received word this morning from the officers of the national organization that the difficulties between the union and Dan O'Neal, the lathing contractor who has the contract at the state epileptic colony, have been settled and that O'Neal signed an agreement with the union Tuesday. Officers of the International Union are expected here today to readjust conditions on the state job, which for a time threatened to tie up the work.

NEXT WAR FOUGHT BY MACHINERY AND MEN OF BRAINS, SAYS DANIELS

THOMAS A. EDISON SECRETARY DANIELS
PHOTO BY AMERICAN PRESS ASSOCIATION

Following a conference between Josephus Daniels, secretary of the navy, and Thomas A. Edison, the nation's foremost inventor, who is to head the new navy board of invention and development, in Mr. Edison's home at Llewellyn Park, N. J., Mr. Daniels said: "Our next war will be fought by machinery and by men of brains. They say we have millions of men and mints of money. But we need more than that. We need machinery and skill. What we want on this advisory board is to bring about a mobilization of brains, a mobilization of genius. I believe in preparedness for war, but I also believe in scientific preparedness, so my idea in organizing this board is, as I say, to bring about a mobilization of the brains and inventive genius of the country. I want to get together the men who have devoted their lives to science and to use their genius and skill for the benefit of the country. I want to help these men to develop their ideas for inventions that will be of service to the country in time of war." The accompanying picture of Mr. Edison and Mr. Daniels was taken at the conference in Mr. Edison's home.

FOUR CASES BEFORE JUDGE HILL'S COURT

STERLING, ROCK FALLS AND DIXON MEN ARE FINED FOR DRUNKENNESS.

There was considerable work in the police court on Tuesday evening and a number of fines were assessed by Justice George W. Hill. Among the number were:

Clarence Steward, Sterling, on the charge of drunkenness. Being the second time to have appeared before the court within a month he was taxed a fine of \$10 and costs.

Joe Cox of Rock Falls, who likewise had indulged too freely as well as being indifferent to personal appearance, was given a fine of \$5 and costs.

James Egan of Sterling and Roy Carr of this city each answered to a plain drunk charge and drew fines of \$3 and costs each.

With the work disposed of the attaches of the court and some personal friends enjoyed a smoker.

FURTHER LOSS OF AMERICANS TO BE "UNFRIENDLY ACT"

GERMAN GOVERNMENT WILL BE ADVISED OF ATTITUDE OF UNITED STATES.

DISCUSSION VIRTUALLY ENDED

(Associated Press)

Washington, July 21—The United States government has decided to inform Germany that further loss of American lives as a result of the German submarine warfare in contravention of the principles of international law will be regarded as an "unfriendly act."

The discussion of the principles is virtually ended.

The note will reject Germany's proposals that American vessels be given complete immunity when not carrying contraband, and for the transfer of American registry of four beligerent vessels for trans-Atlantic traffic provided they do not carry contraband.

President Wilson and cabinet have discussed three tentative drafts of the proposed reply to the latest German note, and agreed upon certain sections of the document.

The question still to be decided is whether a paragraph shall be added warning Germany for the last time that unless she yields to the demands of this government the United States will sever relations.

INJURED BY MOWING MACHINE

Aged Man Suffered Injuries In Mowing Machine Accident.

Josiah Buffett, an aged man who resides at 1014 Franklin Grove road, was painfully cut by a mowing machine late Tuesday afternoon, when the blade of the machine caught his right ankle. The member was badly lacerated and it was necessary to bring the injured man to the Dixon hospital, where his wound was dressed. It will be some time before he will be able to leave the institution.

Guards Of Oil Plant Fire On Strikers Today

Claim Rioters Attacked Them With Sticks And Stones

(Associated Press)

Bayonne, N. J., July 21—Rioting broke out around the plant of the Standard Oil company early today. The guards, who claim they were set upon by the mob with sticks and stones, fired their revolvers, wounding three rioters, none of them seriously. The guards also claim that the rioters fired first. The plant was closed yesterday with a strike of the 5,000 employees, and the company's announcement of its intention of fighting the demands of the men.

The police say that 5,000 men were engaged in the attack, that one rioter was killed and that fifty injured, including both rioters and police, were taken to the hospitals, suffering from injuries. It is claimed the attack was centered on the city police, who were guarding the main entrance. Bullets struck Inspector Cadis' horse. Three wounded men were arrested. The rioters were dispersed.

Troops Refused.

Three policemen, and fifty men and boys were taken to the hospital. John Malosky, aged 18, was killed.

Mayor Garvin wired the governor for troops, but they were refused. The sheriff addressed the crowd in an effort to persuade them to go to their homes.

In sympathy with the strikers 200 employees of the Bergenport Chemical company in Bayonne quit work. It is reported that the 2,000 employees of the Tidewater Oil company, also in Bayonne, would go on strike today and that the 800 employees of the Standard Oil plant at Bayview, near Elizabeth, would stay away from work.

The strikers in Bayonne are in an ugly mood and more than 200 policemen, special deputies, and the watchmen hired by the oil company are guarding the 400 oil tanks, the various factories and refineries against any possible move by the workmen. Because of rumors that the strikers would try not only to set fire to the oil tanks but to blow up the oil tankers tied up to the wharves of the Constable Hook plant, seven partly loaded tankers were towed away from their wharfage and anchored off the Statue of Liberty.

There was a riot in front of the plant, led by striking still cleaners and barrel makers, when the men went out. When the police reserves tried to disperse the mob stones were thrown, clubs swung and shots were fired. In the melee Inspector of Police Cady was struck with a brick but was not seriously injured.

FINGERS HURT IN BUZZ SAW

Russell Byers Hurt While At Work At Clipper Mower Factory.

While at work at the Clipper Lawn Mower company's plant on Tuesday, Russell Byers had the misfortune to hit his right hand against a rapidly revolving buzz saw. The tip of the third finger was severed and the little finger was badly lacerated.

TEAMSTER WAS KILLED IN SAND SLIDE AT NOON

JOHN GREEN BURIED WHILE ALONE AT THE KELLEY GRAVEL PIT TODAY.

WAS LOADING BEFORE DINNER

Had Unhitched the Horses For Their Meal—Found By C. A. Thomas.

John Green, teamster, residing east of the city, on the River road, was killed in a sand-slide at the Kelley gravel pits on West Third street some time during the noon hour today while he was alone in the pit.

His body was discovered by C. A. Thomas who, returning for a load of sand shortly after 1 o'clock, saw the victim's foot protruding from the heap of sand which had buried him and which had crushed out his life.

Was Loading Up.

From the evidence of fellow workmen it is apparent that, returning to the pit soon before noon, the unfortunate man had unhitched his horses to allow them to feed and rest, and as was his custom, to load his wagon before eating his own dinner.

The wagon had been backed up to the north bank of the pit, from which he had been loading, and the horses had been taken to the feed box about fifty feet away. As Mr. Green was standing on the bank shoveling sand over the screen into his wagon, it is probable a huge slide from above swept down upon him.

Pitched Into Wagon.

He was thrown in such a manner that his feet were pitched into the wagon, while his body lay doubled up head downwards, out of the rear of the box of the vehicle.

Dinner Not Touched.

During the noon hour B. F. Hoyle and Will Brandt drove into the pit and started to load their wagons. Each noticed Green's wagon backed up to the north bank, and his horses eating at the feed box, but, knowing that each noon he has allowed his horses to eat before partaking of his own dinner, they thought nothing of not seeing him about; and in fact, were of the opinion that he was at the top of the bank eating his dinner in the shade of the trees.

Under Two Tons of Sand.

When Mr. Thomas drove in to load his wagon, he pulled up at a spot near Mr. Green's wagon and saw the victim's left foot protruding over the side of the rear of the wagon box and out of a huge pile of sand.

He immediately summoned other employees in the pit and frantically they started their work of rescue. The wagon was pulled out from the pile of sand which completely buried its rear end, and they worked desperately to shovel away the earth which buried him.

Fully two tons of wet sand covered the body, to a depth of over two feet.

Initiative And Referendum Is Not Illegal In This State

(Associated Press)

Springfield, Ill., July 21—There is no existing reason why the initiative and referendum cannot be legally adopted in Illinois in the opinion of L. H. Strawn, acting attorney general of Illinois, and who is generally conceded about the state house to be Attorney General Lucey's right hand man in the preparation of weighty opinions.

At the concluding session of the Wisconsin Bar Association at Superior, Wis., July 16, Addison C. Harris of Indianapolis delivered an address in which he declared the initiative and referendum could not be legally adopted in Illinois, Wisconsin, Minnesota, Indiana and Michigan, the five states formed out of the original Northwestern territory. He based his contention on the fact that Virginia in turning the territory over to the Union provided that the area always should have a "strict republican form of government."

"There is nothing antagonistic in the initiative and referendum in the phrase 'strict republican form of gov-

ernment," so some other points have been made in the address that are not carried in the published utterances of the man," said Acting Attorney General Strawn.

Other state officials said they could see nothing in the Harris address which might threaten the initiative and referendum in Illinois. "These chaps who speak at Bar Association conventions always feel that they have to startle the audiences," said one official, "so they spend long hours trying to dig up something startling. This looks like it was intended for just such a purpose."

The referendum, in a modified form is a part of the constitution of Illinois and has been for many years. The constitution of Illinois invested the people with power finally to determine as to the sale or lease of the Illinois and Michigan canal. The legislature passed an act in 1882 ceding the canal to the United States to be maintained as a national waterway for commercial purposes. The people

STATE FAIR CASH PRIZES OF \$85,000

PLANS ARE BEING MADE FOR AN ANNUAL FAIR AT SPRINGFIELD SEPT. 17-25.

(The Associated Press)

Springfield, July 21—Scores of ballyhoo men are taking better care of their voices these days than some of the most highly paid opera stars. The reason, according to B. M. Davison, secretary of the state board of agriculture, in a statement today is the Illinois State Fair, to be held in Springfield, Ill., September 17 to 25.

"As it is bigger and better than ever," said Mr. Davison, "the ballyhoo men realize that the chance of a life time to earn a reputation for ballyhooing, has arrived."

Then with aid of gaily-colored, sample four sheet posters, destined to bedeck the country side; hand bills and other literature describing the state fair, Mr. Davison proceeded to give some of the details of the fair which, he says, has aroused the wonder of the ballyhoo men, those awe inspiring creatures who play on human curiosity until the tents of the lady snake charmer, the wild man of Borneo and the two headed calf, are filled to overflowing.

"For cash premiums we have \$85,000 to distribute," said Mr. Davison. "For the speed events—horse, automobile and aeroplane races there are purses aggregating \$25,000."

"The one mile race track, which has just been resoled to a depth of seven inches, now holds the world's race pacing record, and under the new conditions we expect to acquire some new records."

"The boys' state fair school will be an ideal military camp under the control of a principal charged with complete responsibility and authority for arranging the program of study and of the care of every boy attending the school. Adjutant General Dickson will give his personal attention to keeping the camp in order."

"Each day Ruth Law, the woman aviator, will fly over the fair grounds. It is stipulated in her contract that she must acquire an altitude of 2,000 feet and acquire a velocity of 60 miles an hour on all her flights."

"There are to be free vaudeville attractions day and night. All concessions and shows are to remain open at night. A big spectacle to be called 'The War of Nations' will be put on every night of the fair. It is to be an electrical show with 260 people."

"The University of Illinois plans to show a carload of its best dairy cattle and a high class exhibit of swine. The University has arranged, also, for dairy demonstration of the sterilization of milk, butter making and how to obtain the best results from feeding."

"And, finally, the horse racing. 'There will be horse races of some character every day in the week, beginning Monday, Sept. 20.'"

According to Davison, September 21 will be University of Illinois day. In addition there will be a democratic and Governor Dunne day and Old Soldiers and republican day.

On Saturday, September 25, Barney Oldfield, the automobile racer, and an aviator yet to be selected, will have a joint track and air race. Art Smith and DeLloyd Thompson are the most likely flyer candidates.

AMERICAN UNIVERSITIES—CALIFORNIA

The Californian has a good many things to brag about, and is kept busy doing it that he does not give the University of California as much publicity as it deserves.

California is a young state, but its university is older than that of the states of New York or Illinois. It is also larger than either. It is the third largest university in the country. As soon as the early Californians got over the gold fever and had finished permanently suspending their undesirable citizens, they founded a university; and they have given it their earnest attention ever since.

The University of California is located in a cold damp breeze at Berkeley across the bay from California. It doesn't dazzle the tourist with its buildings at present, but when its great building plan is finished it will have \$7,500,000 worth of white stone buildings and maybe some more famous professors. The California hills rise up behind it and the pine woods stand around it. It has no great concrete stadium, but it has a Greek theatre which has advertised it as effective.

Dramatic Notes

FAMILY THEATRE

The fifth chapter of the Goddess, in two parts will be shown at the Family this evening, and this fact alone should warrant a large attendance as this serial is considered the most wonderful film ever shown. Each chapter of two reels is a complete story. "A beautiful two reel story of The Awakening, will be shown and Current Events—Pres. Wilson reviews the Atlantic Fleet, High School boys after a few days drill perform tasks of regular soldiers, railroad swings like bridge over gulley, cloud burst sweeps away railroad, embankment and leaves rails and ties spanning hole; boys drive baby cars in Junior Cup Race, Bo of 17 years is winner after hard fight in Junior Vanderbilt Cup race. Late London War scenes.

PRINCESS THEATRE

"The Hammer," a two reel Kay-Bee feature, will be shown at the Princess tonight. This is a wonderful drama in which a strange accumulation of coincidences builds up a web of evidence. The other pictures are, "At the Postern Gate," a Reliance drama with Teddy Sampson and Ray Myers in the leading roles, a story in which a sword is drawn by a woman in disguise, a drama featuring Teddy Sampson, a popular movie actress of today; and "Mr. Wallack's Wallet," a Komie comedy in which Fay Tincher appears as a female tramp and wins the reward for the recovery of a wallet.

DIXON OPERA HOUSE

For tonight and Thursday the big cabaret vaudeville show, full of fun and mirth, will make its first appearance at the Opera House. The olio bill consists of Jimmie Porte, the King of accordion players, Will LaMonte, black face comedian, Owen Edgar, comedy singing and talking, Wright, imitator, and Dupree and Edgar, comedy singing and talking. This bill will excel anything shown in this theatre since the opening.

ITALIANS VICTORIOUS IN IMPORTANT BATTLE

Austrians Are Reported to Have Lost 10,000 on Isonzo.

Rome, July 21.—The Italians have won an important victory, it is unofficially reported, on the east bank of the Isonzo near Sagrado. The Austrian losses are said to be in the neighborhood of 10,000.

At the same time the fighting on the Carso plateau is reported to be raging fiercely with the Italians pushing steadily forward over rough ground that had been elaborately prepared by the Austrians with many trenches, wire entanglements and other defensive works.

A determined Italian offensive began in this region Monday morning and was pressed forward with great vigor. The Italians took 2,000 prisoners in this fighting and collected 1,500 rifles in booty. Their losses are admitted to have been heavy.

BRITISH TRADITION CAUSE OF LOSSES

OLD IDEA OF STICKING TO LAST MAN BRINGS HEAVY CASUALTIES.

London, July 8.—Correspondence
of Associated Press.—The British
stick to their trenches to the last man
and hence their heavy casualties. The
French, Germans and Belgians have
no sentiment about yielding ground,
if to their military advantage to do
so, especially when they can draw the
enemy on to marked ranges. But the
tradition of sticking it out to the last,
born of the days when man was pitted
against man, instead of man against
machine, is so strong in the British
army that one of the most important
lessons of the war has yet to be learn-
ed.

These are the observations of a Can-
adian surgeon, who has worked on
the three allied fronts in Flanders
and made a study of different fighting
methods.

According to his account, French
and German, unlike the British, lay
no stress on holding their front line
of trenches. In case of an attack they
withdraw to the rear lines. Being a
careful measured range, the enemy in
taking the first line gets into a wasp's
nest. The French, with marvelous ac-
curacy, pour in both shrapnel and
high explosive shells from their fa-
mous 75 field guns. When they as-
sume the offensive and capture a Ger-
man trench, they protect their men
with a curtain of fire as long as pos-
sible; but if its occupation seems like-
ly to prove too expensive they with-
draw, measuring the ground as best
they can in their retreat in order to
correct the aim of their batteries.

Somewhat the same tactics are fol-
lowed by the Germans who, however,
use machine guns instead of field can-
non. But the British hold on to their
front trench when attacked, and onto
he captured trench when attacking,
with a courage unexcelled in history,
but they act with more courage than
intelligence, since they play into the
hands of the Germans by their very
stubbornness.

British losses have almost all been
due to an effort to stick it out to the
last man, when the French would
have retreated, shelled out the foe
and made a fresh attack. This is the
French policy of attrition. It enables
them to assume the offensive at will
and to keep up a constant and wear-
ing action, while the British make
help fight and then remain as they
are for long periods of inaction.

The Man-of-war Bird.

The frigate pelican, or man-of-war
bird, is usually met with by travelers
in the tropics. Although when stripped
of its feathers it is hardly larger than
a pigeon, yet no man can touch at the
same time the tips of its extended
wings. The long wing bones are ex-
ceedingly light, and the whole appar-
atus of air cells is extremely devel-
oped, so that its real weight is very
trifling. It flies at a great height above
the water and from that elevation
pounces down on fish, especially pre-
ferring the poor, persecuted flying fish
for its prey. According to some au-
thors, the name of man-of-war bird
was given to it because its appearance
was said to foretell the coming of a
ship, probably because the frigate peli-
can and real frigates are equally ad-
verse to storms, and both like to come
into harbor if the weather threatens.

Our First Silk Factory.

Ohio was the first state in the Union
to engage in the manufacture of silk,
according to Dr. William C. Mills of
Ohio State university.

"The first silk factory was erected
at Point Pleasant in 1841 by John W.
Gill and Thomas White," said Dr.
Mills. "These men planted twenty-
five acres in mulberry trees and began
the raising of silkworms the following
year. Dress silks, ribbons, silk velvets
and figured silks were manufactured.
The buckeye burr in light buff was the
first pattern woven. A vast pattern
from this place was presented to Hen-
ry Clay, who also wore a suit of broad-
cloth made in a Steubenville factory.
Since 1877 not a yard of cloth of any
kind has been made in Steubenville,
although at one time there were twelve
woolen, cotton and silk mills located
there."—Baltimore American.

The Sublime Porte.

The phrase "the sublime porte"
arises from an aspect of the sultan's
capital. The French words "sublime
porte" are derived from "porta subli-
ma," meaning "the lofty gate." Con-
stantinople city used to have twelve
gates, and near one was a building
with an imposing gateway called Bab-
i-Humajun. In this building resided
the grand vizier, and there also were
the offices of the chief ministers,
whence all the edicts of state were is-
sued. The French phrase was adopted
because at the time French was the
language of European diplomacy.

Restricted Freedom.

One of the funniest things in the
world is the self conscious look of em-
barrassment on the face of a distin-
guished visitor when he receives the
freedom of a city and its key, which
he knows won't even admit him to a
five cent moving picture show.—Phila-
delphia Inquirer.

How to Sharpen Your Knife.

In the Woman's Home Companion
a contributor gives boys the following
advice as to how to keep their knives
sharpened:

"Few boys who undertake to sharp-
en a knife have any great difficulty in
getting a sufficiently keen edge. It is
in keeping this edge that the trouble
arises. This is due to holding the
knife blade too flat when sharpening.
By holding the knife blade very flat
a sharp edge can be readily produced,
but is so very thin that it is easily
broken and the blade is marred by
jagged nicks.

"The men who are employed in fac-
tories to sharpen the best grade of
knives hold the blade at an angle of
about 45 degrees and really sharpen
only the cutting edge itself. This
method leaves the blade behind the
immediate point of contact sufficiently
thick and strong to stand any ordinary
usage."

Temperament.

"What the dickens do they mean by
artistic temperament?" asked young
Arbutnot of his talented pa.

"Why," explained pa, "if you go to a
tailor and ask him to make you a suit
the tailor is satisfied to go ahead and
make you any kind of suit you want
any way you want it made. If you go
to an architect he's tickled to build you
any kind of house you want any way
you want it built. But if you go to a
man and ask him to write you a cer-
tain kind of book or poem in any par-
ticular way, or if you want him to
paint you a picture or sculpt you a
statue of any particular kind the man
with the artistic temperament, instead
of being tickled to get the job, will
say:

"Now just look what this darn fool
wants now!"—Judge.

FRIVOLOUS MANKIND.

News comes from Chicago that the natural vanity of the sterner sex is no longer being suppressed but has broken forth most unexpectedly in male attire. The revolution now going on in there, which is fast spreading this way, is aptly described in the following editorial from the Tribune:

"Strange and gorgeous flowers are suddenly blooming in the stony gardens of the city streets.

Tired business men are coming down to work in pale lavender linen suits. Elderly gentlemen are taking vast pains to match their hat bands and their neckties with their whiskers. When the spinach happens to be rosy the result is vivid. Masculine visions in purple, picked out with yellow polka dots are too common on Michigan avenue to be noticed.

The rising generation of the heroic sex has taken to exposing its usually angular and projecting Adam's apple between the wide rolls of a Byronic collar. Every other teamster is wearing a corsage bouquet.

Around the corner comes a huge touring car of splendid, glowing scarlet. Out of it step two athletic youths in raiment white and spotless, save for red socks, red belts, and red bands on their wide brimmed picture hats.

One sees women who have done their best to be colorful standing in palsied envy before the displays of the show windows of the fashionable haberdashers. Nowhere else can they find such gay riots of rainbow hues.

We glory in it all. Too long have men been condemned to the wearing of black and gray. Each of us has suppressed for years the desire to wear the gorgeous colors which are needed to set off figures fine or fat. Now that opportunity has come let man prove worthy of it.

Silk suits are already here. A fall of lace at the wrist is easily within our reach. Who is the hero who will first trim his Panama with a cluster of artificial roses?

We hope that no reformer will point out that the new fashion in masculine wear is demoralizing. It is only masculine vanity, too long suppressed, which is seeking expression.

After all, is it not the tail feathers of the male bird which gave the peacock its reputation? And what is man that he should hide his nature?"

MARKET SQUARE PARK.

The band concert held last week in John Dixon park by the Seventh regiment band demonstrated the value of that little gem of a park to North Dixon and emphasized the great need of a similar one on the south side of the river.

Market Square park will partially fill a long felt scarcity of park room on the south side when the park commission funds are available and the park can be put in shape. A grand stand will be one of the improvements of the park and the square will be very useful, as it is near the center of the city and will be made very beautiful. It is a question whether it will be large enough but if it is found that more room is needed, arrangements to care for the need can easily be made.

This summer the city will build a culvert over the open ditch that runs across the west end of the square, and next year the park commission will go ahead with its already prepared plans for planting lawn and shrubbery, grading and building of a grand-stand.

A FAIRY STORY.

Once upon a time a man bought a second hand automobile. The vehicle was young when Noah built the ark. Its body looked like it had been wished on. The wheels did the corkscrew curve every time they turned over. The exhaust sounded like a fog horn with a cold.

"It's cheap at \$450," declared the smiling agent. "I'll take it," responded Our Hero. When he puffed down the street in the relic no one laughed at him. The engine ran very nicely and never balked once. He didn't stall on the crossings and get in bad with the traffic cops. Everything went lovely.

After a summer's enjoyment with his machine he went to a sales agency to trade in his machine on a new car.

"How much will you give me on this machine in a trade?"

"Five hundred dollars," was the reply.

"I'll take it," exclaimed Our Hero.

And he lived happily ever after.

MR. BRYAN AND HIS MEMORIES.

When Mr. Bryan left the State Department he took with him the desk which he and many of his predecessors had used. It will make a valuable addition to his collection of souvenirs which he has accumulated since 1896 and which connect his thoughts with the political disasters of his career. He wanted this desk because upon it he signed the numerous so-called "peace treaties" with which he stalked the Nobel prize. But more interesting, in the near future at least, would be the desk upon which he drafted the single-term plank of the Baltimore platform.

NO PLACE FOR A WHALE.

A dispatch from Rome says that a whale sporting innocently in the water was mistaken for a submarine and a mighty warship shelled the big fish and killed it. Whales have a very unfortunate shape and if they have any regard for life and fin and happiness, they will keep out of the war zone. If a whale wants a thrill, however, he should rise to the surface on the placid bosom of the Thames river. He would have a busy quarter of an hour.

THE SMOKE NUISANCE.

The residents of the east end are stirring things up over the smoke nuisance and they have got the police department on their side. The city officials propose to stop the smoke trouble and in this effort they have the support of every property owner.

BETTER CAST OUT AN ANCHOR.

Won't the Russians feel cheap, after all their talk about subtle strategy in drawing the Germans into the interior of their country, if they can't stop when they get far enough in? It would be embarrassing if they had to keep on going after they had reached the strategic point.

I. AND R. ARE NOT ILLEGAL IN STATE

voted for and against the proposition and it was ratified by the necessary majority of votes cast.

The appropriation of money for the erection of capital buildings also is a matter for a referendum in Illinois. The people of Illinois also voted twice before they finally ratified, in 1884, the appropriation of a balance of \$531,712 to complete the state house; and it was not until they had ratified the appropriation that the funds were made available to the legislature.

By an act passed by the Illinois legislature in 1895 the people of any city in the state were given the right to adopt the provisions of a general law regulating and reforming civil service.

A sort of financial referendum provision was adopted in 1848. This provided for referendum which the legislature contemplated a debt of not exceeding \$50,000. In 1870 this was changed increasing the amount to \$250,000.

At another stage of its history Illinois experimented with an advisory referendum, which consisted of submitting the question to the people with a view to advising the legislature on the subject of the popular will. On October 11, 1901, the legislature enacted that ten percent of the registered voters of the state and 25 percent of the registered voters of an incorporated town, village, city, town ship, county or school district might petition the proper election officers for a submission of any question of public policy. Not more than three propositions could be submitted to the people at any one time. According to E. P. Overholzer in his work, The Referendum, Initiative and Recall in America, the law is impracticable and has remained ineffective.

The right to propose measures for the legislature to enact has not such a prominent place on the statute books of Illinois.

Another of the many phases of referendum existing in Illinois provides that fifty land owners in any township may have an election called on the question of levying a tax not to exceed \$1 on each \$100 of the assessed valuation of all the taxable property in the township for the purpose of constructing and maintaining hard roads.

The initiative operates in Illinois frequently. A petition containing the signatures of two-thirds of the legal voters of a township will validate the sale of school lands without a ballot.

RECEIVED INJURY; IS VERY ILL.
Mrs. Mary Clancy, 904 Ottawa avenue, mother of Mrs. Kathryn Collingrove, is very ill at her home. Mrs. Clancy fell a short time ago, striking her head and cutting a severe gash, and as Mrs. Clancy is quite elderly the shock has made her seriously ill.

Mr and Mrs. Fred Kleister of Nelson were in Dixon today.

Misses Lillian Coakley and Gladys Eddy of DeKalb, who have been the guests of Mr. and Mrs. Harry Seeley since Saturday returned to their home this morning.

BALKAN STATES LOOMING IN WAR

What Will Greece, Roumania and Bulgaria Do?

VENIZELIS IS HOLDING KEY

Two Remarkable Interviews by War Correspondent of Berliner Tageblatt Paint Gloomy Picture of Future—War With Bulgaria Believed Certain—Greece May Be Isolated.

New York, July 21.—Overshadowing all else from a standpoint of diplomacy in the present war is the question: Will there be another Balkan conflict? Greece, Roumania and Bulgaria are the three countries being constantly courted by the diplomats of the European powers now at war, one side endeavoring to coax one or all three into the world conflagration while the other is doing its very best to keep them to maintain their neutrality. News of failure or success of these efforts have been scarce. The entire Balkan situation is veiled in a cloak of deep secrecy and mystery.

Two Important Interviews.

The first glance into the status of affairs at least in one of these three Balkan nations, Greece, in its relation to the allies and the central powers, is given by two remarkable interviews obtained by Dr. Leo Ledoc, war correspondent of the Berliner Tageblatt. One of them with the present Greek premier, Gounaris, is published in the issue of June 26, the other is an authorized account of an interview between the former deputy from Sparta, Kolumvakis, and Venizelos, the ex-premier, who is expected soon to resume the reins of his country's government and who is probably the most important figure in the Balkans at present.

"Between the lines," as it were, of both interviews, there runs a reflection of the tremendous efforts made by German diplomacy to keep Greece from entering the war as it was about to do when Venizelos power was abruptly plunged—temporarily at least—into oblivion by King Constantine, the friend of the Hohenzollerns.

Paints Gloomy Picture.
Also, there is an intimation throughout that Germany hopes that in the event Venizelos should return to power his policy will not be the old one, but will incline toward the central powers. In his conversation with his political friends he predicts a war with Bulgaria, sees Greece isolated, having incurred the disfavor of the allies, and paints a gloomy picture of the future.

—There is no use trying, you cannot be comfortable these hot days, without Heals. All druggists keep it.

IT IS 20 DEGREES HOTTER IN YOUR KITCHEN THAN IT IS OUT ON YOUR PORCH. ...

Then why not have a "Hoosier" White Beauty Kitchen Cabinet and spend a lot more time out on the porch these hot days?

Just think of the long, hot hours of kitchen drudgery that are before you and then think what it would mean to escape so many of them and still have your kitchen work done better; that's what a Hoosier White Beauty Cabinet means to you.

The Hoosier puts your entire kitchen at your fingers' end, a place for everything, that places the most convenient one; simply a complete machine for kitchen work. They truly save waste, save health, save time, save money and save miles and miles of steps.

LOCK-IN HALTS ARMS STRIKERS

Remington Manager Meets Men
and Grants Demands.

UNION LEADERS ON OUTSIDE

(Associated Press)

Bridgeport, Conn., July 21.—Labor leaders claimed this morning that they had taken 110 additional men from two plants doing work for the Remington Arms Co., that the pickets had kept eighteen men from going to work at the new Remington plant, that 100 men of the night shift of the Metallic Cartridge Co. had struck and that at noon today hundreds of the day shift would quit. They said that 500 skilled machinists are now out on strike.

Bridgeport, Conn., July 21.—Major Walter G. Penfield, U. S. A., retired, general manager of the Remington Arms and Ammunition company, almost completely forestalled the opening of the big strike on war munitions work. By the simple expedient of calling the would-be strikers to a meeting inside the plant and offering them more pay and shorter hours the major checkmated the strike leaders, who waited outside the gates to order the men not to return after the noon hour.

His move prevented the strike of some 200 metal trades workers in the new Remington plant, which was to be labor's first blow. About 100 workers in three factories doing subcontract work for the Remington shops did walk out at noon but the action of the major and its reception by the workers in the Remington plant so disconcerted the strike leaders that the situation in Bridgeport is more uncertain than it has been since the agitation started.

Mrs. Emma Wilkins and daughter, Miss Mildred of Clinton, Ia., were guests Sunday at the John King home.

DIVINE RETURNED HIS CHECK TO STATE

SENATOR CLIFFE WAS ALSO ONE
WHO REFUSED MILEAGE
FOR SESSION

Springfield, Ill., July 21.—Only twenty-eight out of 200 members of the Forty-ninth general assembly have failed to call at the state auditor's office to collect the mileage voted to themselves by the legislature, which adjourned June 30.

In view of the injunction suits restraining payment of this money and other appropriations filed by former Representative Payette S. Munroe, those members who did not take the "mileage grab" money are feeling exceedingly happy according to reports that have reached the capital.

Should the courts decide that this money was illegally appropriated, the members probably will have to return it or face suits by the state treasurer. Four Cook county house members did not draw the mileage money. They are: Speaker David E. Shanahan, Chicago; Medill McCormick, Chicago; Isaac S. Rothschild, Chicago; Fred-eric R. De Young, Harvey.

Down-state house members who refused to touch the coin which, when the bill came up in the house, was branded "tainted," are: William H. Basel, Astoria; William H. Bentley, Pontiac; Randolph Boyd, Galva; Thos. Campbell, Rock Island; John L. Cooper, Fairfield; DeGoy B. Ellis, Elgin; W. J. Graham, Aledo; Carl Green, Robinson; W. C. Kane, Harrisburg; John Kasserman, Newton; Harold C. Kessinger, Aurora; W. T. Morris, Du Quoin; Walter M. Provine, Taylorville; Clifford Quisenberry, Lincoln; Walter E. Rinehart, Effingham; Richard Taylor, Elizabethtown; John W. Thomason, Louisville; George H. Wilson, Quincy.

Six senators who have not called upon Auditor Brady for their vouchers are: Martin B. Bailey, Danville; Adam C. Cliffe, Sycamore; Edward C. Curtis, Grant Park; Kent E. Keller, Ava; Walter I. Manny, Mount Sterling; W. Duff Piercy, Mount Vernon. Three members of the house, Butler, Merritt and Lyon, and one senator, Smith, living in Springfield, were not entitled to mileage under the provisions of the bill attacked by Munroe.

Representative John P. Devine of Dixon and Senator William A. Compton of Macomb returned their warrants after they had been sent to them by the auditor.

Mr. and Mrs. Ray Miller went to Chicago on business this morning and will remain in the city for a couple of days.

ROCK RIVER ASSEMBLY TALK. FORECASTS OF COMING EVENTS

The Cathedral Choir of Chicago will appear at the Rock River Assembly, Saturday July 31, and Sunday, August 1. No one cares to miss this musical treat and for an attraction on the opening day of the Assembly it is certainly one of the best attractions obtainable.

There is no class of music more beautiful, more helpful, more inspiring, more uplifting, and contributed to more bountifully by the world's greatest music masters, than that which is composed to be sung during services of divine worship.

The Cathedral Choir is presented, not only as a company of artists to entertain, but as a suggestion of a sacred portal. In presenting these artists it is hoped that wherever they appear, they may inspire a desire for more beautiful music in the worship of God.

NOTE MAY BE LAST WARNING TO BERLIN

Majority of Cabinet Said to Favor Final Word.

(Continued from Page 1)

States will adopt a more vigorous course than she has heretofore employed. The alternative is to withhold this declaration of purpose until the next communication.

The action contemplated is the breaking off of diplomatic relations with Germany. If this were done, Ambassador Gerard would be recalled and Ambassador Bernstorff would be provided with safe passage to Germany. This state of affairs would continue until Germany had given the necessary assurances that American lives and property would be safeguarded under the recognized rules of international law.

FLOODS SWEEP HOMES AWAY

National Guard Tents Sent to Shelter Pearl, Ill., People.

Springfield, Ill., July 21.—Floods in the Illinois river have swept away the homes of forty families at Pearl, Pike county, Ill., according to an appeal for aid sent to the governor's office by John B. Knox, president of the board of trustees of Pearl.

Orders were issued at once to the quartermaster's department, Illinois National guard to send tents to be used as shelters until the homeless can be provided for in other ways.

Fires Make Track Slippery.

Chillicothe, Ill., July 21.—Local Santa Fe officials and employees are trying to solve the problem as to how the pest of Mormon flies can be handled so as not to menace traffic on the road as they did last summer. The flies swarm by the million all along the track and road bed, and as the trains turn the curve they crush them by the thousands under the wheels, making the track so slippery that many of the trains are delayed on account of the wheels slipping.

TEAMSTER WAS KILLED IN SAND SLIDE AT NOON

Continued from Page 1.

His hat was on his head, glasses were in place on his eyes and his hand rested on the top of the shovel, just as the slide precipitated him to his death.

Physician Summoned.
Dr. A. F. Moore responded to the hurried call for a physician and was on the ground a few minutes after the victim was uncovered, but Mr. Green was beyond medical aid. After a careful examination the physician pronounced death the result of suffocation, and gave it as his opinion that the man had been dead for nearly two hours.
The body was taken to the home on the River Road and Coroner Stephan of Ashton was notified. That official will come to Dixon late this afternoon and will probably conduct the inquest this evening.

Was Industrious Man.

Mr. Green is survived by his widow and several children, who were almost prostrated by the news of his tragic death. For many years he has been engaged in the teaming business in this city, and at the time of his death was working for Frank Hink.

MIDDLE WEST RECOVERS FROM SWEEP OF THE SEVENTY MILE TORNADO

SCENES OF THE DISASTER

Cincinnati has valiantly striven to remedy the devastation caused by the fatal tornado that swept over it causing the death of upward of thirty people. The area covered by the storm was of many miles in both width and length. The wind exceeded seventy miles an hour for several minutes. The property loss was over \$1,000,000. Reports from the storm swept area of eastern Missouri and western Illinois made the death toll four. Three persons reported missing at St. Charles, Mo., the largest town in the path of the tornado, were found later to be safe. At Dardene, Mo., fifty homes were reduced to splinters. At Wentzville, Mo., Mrs. Herman Oberlin was killed, and at Gilmore the body of Frank Kunze was found on the railroad station platform after the storm. From St. Charles the tornado swerved across the Missouri and Mississippi rivers to Illinois. There it branched out, sending cloudbursts to Rock Island and to Mounds, near Cairo, in the extreme southern part. Three persons were killed and fifty injured, while property damage was \$750,000 by the storm which swept central and southern Indiana and Illinois. At Lawrenceville, Ill., a few miles from Vincennes, Ind., Clara Riley, seventeen, was crushed to death when the Riley home was demolished. Her father, Tom Riley, was buried in the debris and is not expected to recover. Many other Lawrenceville buildings were partially wrecked.

Gehant and family were here Thursday. W. A. Halbmaier and family were in West Brooklyn on Thursday visiting friends. W. A. Halbmaier and family motored to Tampico on Tuesday and spent the day at the farm. George Schnuckel was in town on Wednesday. He is suffering from rheumatism and says he will leave within a few days for Mt. Clemons, Mich., to try the springs for a cure. We trust the trip will prove beneficial and will relieve him of his trouble. P. J. Sonderoth was in West Brooklyn transacting business Thursday. Dance and enjoy yourself at the opera house Wednesday night. J. G. Halboth was in town Thursday from South Brooklyn. Henry Stein and family of Amboy spent Thursday in West Brooklyn as the guest of Mr. and Mrs. W. J. Long. On Friday he went to Chicago for a short visit. Eugene P. Henry and family were in town from Viola on Thursday evening. Mr. and Mrs. H. A. Bernardin, Mr. and Mrs. August Gehant and daughter Stella and Mr. and Mrs. William Auchstetter and daughter Flossie, after visiting in Chicago on Sunday, went to Milwaukee by boat Monday. They report a splendid time and say the lake riding was fine. They returned to West Brooklyn on Tuesday evening. Lovejoy Abell of Pawpaw was here visiting with D. L. Abell and family Thursday. Mrs. George Smith of Lee Center township was calling on friends here Friday. Mr. and Mrs. A. L. Derr visited with D. J. Neighbour and wife in Chicago Sunday.

Lewis Henry of Pawpaw was visiting relatives in West Brooklyn one day during the week. John Florscheutz and family of Welland visited with Mrs. Fassig on Thursday. Jacob Henkel Sr. was in town on last Thursday afternoon visiting with friends. The management of the moving picture show which plays at the opera house every Saturday night are moving their engine over from Shabbona so that they will not have to depend upon the electric current of the I. N. U. for electricity for their pictures during stormy weather. In this way they will be able to show every Saturday night whether the night is rainy, stormy or suitable. The engine generates its own current with the aid of a dynamo and really improves the pictures. However, the I. N. U. current is easier to use and for this reason preferable. Nevertheless, remember, either the one current or the other will provide for the pictures on every Saturday night commencing at 7:45 o'clock p. m. Adults 15c, children 5c. John Minnihan was here from the Flatts last Wednesday transacting business. Charles Mackin and family of Viola were calling upon friends here Thursday. Adam Schanberg and wife of Ashton were shoppers in West Brooklyn Thursday. John P. Untz and Eddie Henry of Viola were in West Brooklyn Thursday afternoon. People who were not in West Brooklyn on Thursday could not be made to realize the great commotion and excitement caused by the opening of the M. J. Bieschke selling out sale. Eleven clerks were kept on the jump all day long and until late at night handling the crowd and on Friday morning the doors had to be kept locked until the management could arrange their stock for the day's business. People came from all over, from far and near, and an idea of the number can be ascertained from the fact that at one time 110 automobiles were in town. Multiply this by the average number of persons carried in each car and you can imagine a part of the crowd that Bieschke's store handled during the day. It proved to be the greatest sale ever held in West Brooklyn. The doors opened at 9 o'clock and enough people were waiting outside the doors to more than fill

the store. It was almost impossible to get into the store at any time during the day. There is \$15,000 worth of merchandise still to be sold, so if you haven't got to the store so far, you can buy to your heart's content yet. If the persons knowing themselves to be from two to eight months in arrears with their life or accident insurance would call at the restaurant and pay the collector, it would be appreciated. Julius Henry was in town Thursday afternoon. The band concert given by the West Brooklyn Cornet band Thursday night drew the crowd of the season so far as it is estimated that 500 people were gathered on Main street to hear the music. A count of the automobiles was attempted and in the square surrounding the band on Main street were 76 cars. By adding to this the number of cars elsewhere parked in town and the bugles and rigs hitched everywhere it is clear to see that an estimate of 500 people is low. The band concert was fine for the program seemed to be the best one so far this season. When enjoying these concerts think of the merchants and business men of West Brooklyn who make these concerts possible by defraying their expense. This token of remembrance on their part shows their appreciation of your patronage the year round and is an invitation to come to West Brooklyn more often and be their guests. A. B. McCrea and family were visitors in West Brooklyn on Thursday afternoon. Joseph Wiser of Ashton was here last Monday. Charles Stout of Compton brought an auto load of shoppers over to West Brooklyn on last Thursday afternoon. A. S. Berry of Amboy was in West Brooklyn Thursday attending the Bieschke sale. Clarence White and Joseph Bernardin were in Dixon on Thursday and Friday, where they took the teachers examination. Ed. Guffin and wife of Pawpaw have been guests of C. F. Guffin here this week. Henry Kihkelaar has been selling a choice lot of water melons fresh from the ice box to his patrons this week. They are fine this hot weather. Jos. B. and Jos. H. Bauer were in town Thursday. Edward Henry Sr. returned from

Chicago Thursday.

Miss Kathryn Chaon is home again after visiting for some time with her son, Wm. Chaon, and wife at Polo. F. W. Meyer is looking for a car load of peaches at \$1.50 per bushel most any time now. He has a large list of advance orders.

Miss Ruby Johnson returned home on Saturday night from Chicago Heights after visiting for a week with relatives.

Messrs. Henry & Oester sold one of their touring cars to Chas. Rabbit of Amboy.

The gang of men in the employ of the Continental Bridge company are at work on the new Mireley bridge this week rushing the job to completion. The bridge will be substantial and handsome when finished and will put an end to a long needed improvement along that road.

Mrs. Sarah A. White has returned to her home in Savanna after visiting for several days at the A. L. Derr home here.

Mrs. Prosper Gander, Mrs. H. W. Gehant and Miss Mae Gehant motored to Mendota on last Friday afternoon.

William Hastings of Viola township was in West Brooklyn Saturday forenoon.

Edward Fuller of Dixon was calling upon acquaintances here last Saturday.

Mrs. G. L. Edwards was visiting with relatives in town on last Saturday afternoon.

John Untz Sr. was a visitor upon the streets of West Brooklyn Saturday morning.

The village board held a postponed meeting on Tuesday evening owing to the fact that a quorum was not present on the preceding night.

They say who laughs last, laughs best. That's what F. W. Meyer says the people will be doing by waiting for bargains to be had at his semi-annual clearing sale to be held during the last ten days of this month. He has real bargains to offer for he has goods to offer of known quality and merit and is merely shaping up his stock for the better accommodation of his customers, because he wishes to continue in business in West Brooklyn. By giving the people their money's worth at his sale he expects to gain many more customers for the future. Watch for his sale.

DRINK MORE WATER IF KIDNEYS BOTHER

Eat less meat and take Salts for Backache or Bladder trouble—Neutralizes acids.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, uric, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water, also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

SCHOFIELD HOTEL AND COTTAGES

This popular resort is almost as well known as the Dells. It has been entertaining summer guests for forty years, and has lately been enlarged in capacity by the erection of a large modern building, fully equipped with every modern convenience, and affording dining room, assembly parlors, etc. This is an addition to the popular cottage plan, and adds to the previous popular attractions of the older system. The hotel and cottages are in extensive grounds, delightfully shaded by large oaks, and being away from the river is most especially desirable for families with children. The location is in the edge of Kilbourn on a pretty resident street, but a pleasant walk from the river and depot, and with regular free bus and carriage service to these points. The large hotel is not surpassed in this locality in point of modern style and comfort. The annex cottages and grounds make it altogether everything that anybody would desire. The test of efficiency is in the table. This hotel is especially noted for its excellent table board. Fresh butter, eggs, vegetables and fruit are supplied daily from the farm, and its preparation by a professional chef is perfect; chicken dinners twice a week. family for week or longer. Rooms with bath must be applied for in advance. Rates: \$2 per day, \$12 per week, half rates for children; rates made to family for week or longer. Rooms with bath must be applied for in advance. Free use of garage. JOHN A. SMITH, Prop. Kilbourn, Wisconsin

LADIES! SECRET TO DARKEN GRAY HAIR

Bring back color, gloss and thickness with Grandma's recipe of Sage and Sulphur.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle; at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not unful, we all desire to retain our youthful appearance and attractiveness. By lathering your hair with Wyeth's Sage and Sulphur, no one can tell because it loses its so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

Record sheets for nurses in blocks of 50, for sale at the Evening Telegraph office.

Order your wedding invitations at the Dixon Telegraph office. We have them either printed or engraved. You may see samples any time upon request.

INDIANA PUBLISHER IS EXTORTIONIST, CHARGE

James F. Matson, Indianapolis, Accused of Blackmail.

Detroit, Mich., July 21.—James F. Matson, sixty years old, publisher of Matson's Monthly, an insurance publication at Indianapolis, was arrested in Detroit on complaint of Clarence L. Ayers, president of the Northern Assurance company of Michigan, who charges extortion.

Matson came to Detroit and, it is charged, communicated with Ayers, advising him that he had material for articles which would be published in the monthly magazine, and suggested that it would be well for Ayers to call and see him. It is said that after Ayers reached the hotel room, where Nelson had arranged to meet him, Matson told him several stories and then asked for \$2,500 for their suppression. Ayers had taken \$5,000 in marked bills with him and he at once handed over three \$1,000 bills to the Indianapolis publisher, who placed them in his pocket. After Ayers suggested that the \$500 due him as change be returned to him, Matson then prepared to leave the room.

As he stepped into the hallway he was confronted by Detective Golden. He began to tremble like a leaf, according to the officer, and pulling the money from his pocket offered it to the officer.

"Take it," was the only comment he made, according to the detective.

BECKER TO ASK NEW TRIAL

Application to Be Made Before Supreme Court Justice.

New York, July 21.—Announcement was made by Martin T. Manton, attorney for Charles Becker, the former police lieutenant, who is under sentence to die on Wednesday of next week for instigating the murder of Herman Rosenthal, a gambler, that within the next few days an application will be made before a supreme court justice in this city for a new trial for Becker.

Mr. Manton said the application would be made on the ground of newly discovered evidence.

ROBBED OF \$4,400 IN STREET

Cashier for Cudahy Firm in Milwaukee Held Up in Daylight.

Milwaukee, July 21.—Edward Laase, cashier for a local branch of the Cudahy Packing company, was robbed of a satchel containing \$4,400 on his way to make a deposit in a bank.

The robber pounced upon Laase three blocks from the office and took the bag, but dropped a package containing a part of the money. This was recovered. The robber was chased several blocks, but escaped.

RANSOM ASKED BY BANDIT

Death of Wealthy Rancher Threatened Unless \$6,000 Is Given.

Idaho Falls, Idaho, July 21.—Ernest Empti, thirty-five years old, a wealthy rancher, is being held by a lone bandit for \$6,000 ransom, according to word received from Empti's ranch, thirty-three miles east of here. Death is threatened in case the money is not forthcoming.

Probing Warfare Violation.

Petrograd, July 21.—The council of empire has appropriated \$20,000 for an extraordinary inquiry into "the breaking of accepted rules of warfare by Germans and Austrians in the fields."

The Telegraph has employed the services of Geo. Murray as country circulator. John Thome still retains his position as collector and circulator for this paper.

SUMMING UP THE EVIDENCE

MANY DIXON PEOPLE HAVE BEEN CALLED AS WITNESSES.

Week after week has been published the testimony of Dixon people—kidney sufferers—backache victims—people who have endured many forms of kidney, bladder or urinary disorders. These witnesses have used Doan's Kidney Pills. All have given their enthusiastic approval. It's the same everywhere, 30,000 American men and women are publicly recommending Doan's—always in the home papers. Isn't it a wonderful convincing proof? If you are a sufferer your verdict must be "Try Doan's first."

Here's one more Dixon case. W. H. Gillespie, 711 Nachusa ave., Dixon, says: My back often gets so lame and sore that it is painful for me to stoop over. I have headaches and dizzy spells; whenever any of these attacks come on, I use Doan's Kidney Pills, and they promptly remove the pain in my back and relieve the headaches and dizzy spells.

The True Philosopher.

The true philosopher makes a considerable do over his love of and his search for knowledge. But if he is a truly wise philosopher and if he values his reputation he will stop safely short of ever acquiring exact information. Exact information is fatal to the philosophical temperament. A philosopher is a man who can make solemn and profound remarks about any matter whatsoever without knowing anything about it. As soon as he learns something about a matter he is to that extent excluded from philosophical about it. He is no longer a pure philosopher; he is now part scientist. This explains why there are so few prominent and prosperous philosophers these days. With the vast development of our means of communication, the multiplication of books and newspapers and the obtrusiveness of reformers, it is almost impossible to get through the world without picking up a great deal of correct information, and consequently it is well nigh impossible to be a philosopher—Life.

That "Dead Man's Chest."

The rendering of the first line of Stevenson's immortal song as "Fifteen men on a dead man's chest" spoils the significance of the phrase, writes a correspondent. License is permitted to poets, but no fifteen men could ever find room on the chest of any man, dead or alive, unless they were Lilliputians on the top of a Gulliver. The actual phrase is "The Dead Man's Chest," which is the name of one of the Virgin Islands, lying to the east of Porto Rico. It is said that when Columbus discovered the group he named them after St. Ursula and some of her mythical virgins, but the English buccanniers rechristened them in homelier terms, such as "Dutchman's Cap," "Broken Jerusalem," "Rum Island" and "The Dead Man's Chest." Kingsley refers to the matter in the first volume of "At Last," and Stevenson acknowledged, in his account of "Treasure Island," that he had lifted the phrase from the older novelist's pages. —Manchester Guardian.

Flags of France.

France had numerous national flags before it adopted the tricolor. Although its present banner is not particularly artistic, its predecessors ranked among the most beautiful flags in the world. The first French flag was extremely quaint. It consisted of a blue hood hung on a cross bar and represented the cloak of St. Martin, a saint greatly revered by the French, and years ago his helmet was carried in their wars to inspire the soldiers. The second French flag was a beautiful banner of red, with its loose end cut into three tongues resembling flames, between each of which was a green tassel. Some picturesque banners were at one time carried by the French warriors before the tricolor waved over the French battlefields. There was the sky blue cavalry standard with the golden sun of Louis XIV., the white and gold banner of Joan of Arc, magnificently embroidered with the Madonna, angels and lilies, and the famous old banner of the city of Paris, with its white ship on a blood red field.

Watch Your Dishcloth.

Improperly cared for, what a happy hunting ground for germs and microbes the dishcloth may be, exclaims Eva J. de Marsh in Farm and Home. Just put one in a pan with a lot of dirty, greasy dishes, rinse it in lukewarm water or not at all, hang it in a warm, dark, shut in corner and leave it overnight. You will know it is there! Drink some milk, eat some butter, pudding or jelly that has stood where it absorbed all the dishcloth had to give, and if you suffer no ill effects you are germ proof.

The materials of your cloth may be anything, so long as it is absolutely clean and free from dyestuffs. Let your dishes be scraped clean before they go into the pan, use your cloth to wash them only and always rinse it well when you are through. If you can, frequently hang it in the sun, wash and boil often, and never leave a cloth so it will remain wet a long time and get sour.

How's your dish rag?

RUSSIANS SAVE GUNS IN FLIGHT

Only Ten Captured by Teutons in Polish Drive.

ONLY 15 MILES FROM WARSAW

Hindenburg Threatens Petrograd Line to Polish Capital and Invaders Drive to Lublin-Choin Route—Fortress of Ostrolenka Falls to German-Austro Forces.

Berlin, July 21.—Major Morah, military critic, says in the Tageblatt:

"General Von Hindenburg's line, 340 miles long, is now threatening the principal Russian communication line between Warsaw and St. Petersburg. The Germans marching toward Mitau are only thirty miles from the important sea fortress of Riga. General Von Mackensen is only six miles from Lublin, which the Russians are deserting.

"The Germans are showing splendid superiority in aggressiveness, throwing the enemy out of his fortified positions with ease. The number of prisoners is increasing enormously, although only ten Russian guns have been captured. This means that the Russian artillery cannot maintain their positions long enough to cover the retreat and must leave the defense to the infantry, which is very costly.

Retreat Is Costly.

"The fact that the Russians are leaving their positions north of the Pilica protecting Warsaw is very significant, as is also the Russian retirement behind Ilzanka. It means that the whole left of the Vistula will soon be clear of the enemy."

Berlin expects to see the whole Russian line about Warsaw encircled or caught in a vise, which will mean its capture or destruction, thus ending the possibility of further Russian resistance.

Ostrolenka Falls.

London, July 21.—Immediate evacuation of Warsaw, which according to various dispatches has already begun, the capture of the great Russian fortress of Ostrolenka, sixty miles north of the Polish capital, the fall of the Russian Baltic seaport of Windau, the approach of the Germans to approximately fifteen miles northwest of Warsaw and the capture of 45,000 Slav prisoners, mark the crisis of the colossal Teutonic offensive designed to crush the czar's empire beyond hope of recovery.

FIRE THREATENS 800 EMIGRANTS ON LINER

Steamship Benalla In Indian Ocean Calls for Help.

London, July 21.—The steamship Benalla of the P. & O. line, is afire in the Indian ocean, 800 miles from Durban, says a dispatch from Durban. There are 800 emigrants aboard bound from London for Australia.

The steamship Otaki is now steaming to meet the Benalla. She was 150 miles away when the distress signals were picked up.

Torpedoes Still Supreme.

Norfolk, Va., July 21.—The torpedo is still supreme in naval warfare. This was demonstrated when a steel caisson, made of the same armor plate, it is said, as is used in the construction of the dreadnaughts Arizona and Pennsylvania, were sunk when a mine was exploded under it.

Germans Trying Food Experiments.

Berlin, July 21.—(Via Rotterdam.)—Schoeneberg, near Berlin, is experimenting with new food stuffs for the poorer classes. The foods consist of a mixture of corn, dried vegetables dried fish and meat extracts.

5,000 Men Put to Work.

Benwood, W. Va., July 21.—For the first time in nearly two years wheels are turning in the big Riverside plan of the National Tube company. Over 5,000 men are employed.

ZAPATA IS IN MEXICO CITY

Carranzistas Completely Evacuate the Capital—Officers Named.

Washington, July 21.—Mexico City has been completely evacuated by the Carranzistas under General Gonzalez and now is in full possession of the Zapatistas, advices received at the state department indicate.

These dispatches, dated Mexico City, Monday noon, announced that the Zapatistas entered the city Sunday afternoon and appointed various city authorities. The Zapatistas are in full power, but apparently they desire to maintain order. President Chazaro and the convention government have not yet returned from Cuernavaca, where they fled on July 1.
